

A Day In The Life of Martin Fuchs

SWISS RIDER MARTIN FUCHS COMES FROM A FAMILY OF SHOW JUMPING ROYALTY. HIS FATHER THOMAS TRAINS OLYMPIC GOLD MEDALIST STEVE GUERDAT, AND HIS UNCLE MARCUS IS A SILVER OLYMPIC MEDALIST.

At only 25, Martin is a fierce and wise rider who has been trained by the best to win in every situation possible. Last year, he won the first leg of the Longines Global Champions Tour in Mexico with Chaplin, his 11-year-old bay stallion, and competed at the 2016 Olympics in Rio de Janeiro.

While Fuchs is a serious competitor, placed in the top 10 in the Longines Rankings of jumping, you may be surprised to always see him walking by with a big smile and a face that reflects innocence and happiness. He seems carefree and to enjoy every minute of his journey to the top in the sport.

Aboard his beautiful grey 12-year-old gelding, Clooney, Martin won the Longines Grand Prix of Zurich. This is one of the 13 competitions in Western Europe that leads to the World Cup Final being held alongside the Seine.
