

Longines Global Champions Tour and GCL 2018

Are you ready for a spectacular showcase of top class show jumping? Putting the world's best riders and horses head-to-head in the most breathtaking locations around the world in a 17-event calendar, the 2018 Longines Global Champions Tour and GCL series brings top tier sport from spectacular locations to a worldwide audience.

The sport's leading riders and horses will unite to compete in the ground breaking Longines Global Champions Tour and GCL team series, visiting jaw-dropping locations across Europe, The Americas, Asia and The Middle East. The circuit takes in such iconic destinations such as on the Atlantic shoreline of Miami Beach, Paris by the Eiffel Tower, Shanghai, London, Mexico City and Doha with two new events for 2018 – the Riviera resort of Saint Tropez and Czech's capital city, home to the new, Global Champions Prague Play-Offs, which will be the ultimate showdown for the world's best show jumpers.

On the Longines Global Champions Tour, elite equestrian athletes including Olympic and world champions will compete for some of the highest prize money in the sport with the aim of being crowned Champion Of Champions.

The high-octane, highly tactical GCL team competition embarks on its third year in 2018. The series marks the first time that top riders from different countries compete together in top level sport, as well as providing some of the world's most talented under-25 riders with a chance to compete on the global stage.

To earn championship honours, horse and rider must prove themselves over some breathtaking tracks set by the world's leading course-designers, performing at their peak over grass and sand surfaces, in small and large arenas, by day and by night and in front of thousands of spectators in a variety of environments.

With live coverage of every event streamed on GCT TV and GCL TV with expert commentary and analysis, entertaining back stage features and studio talk shows, the 2018 Longines Global Champions Tour and GCL team series looks set once again to push the boundaries and bring the sport to new audiences. It's the big event you simply cannot miss.
